EDUCATION

Master of Science in Computer Science, Indiana University Bloomington

Aug 2021 - May 2023

Courses: Database Technologies, Software Engineering, Applied Algorithms, Artificial Intelligence

3.55 GPA

Bachelor of Engineering in Computer Engineering, University of Mumbai

Aug 2017 - Oct 2020 Courses: Operating Systems, Computer Networks, Database Systems, OOP, Distributed Systems

3.66 GPA

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, PHP, SQL, HTML5, CSS3 Databases: MySQL, PostgreSQL, MongoDB, AWS DynamoDB, Redis

Frameworks: React.is, Next.is, Spring Boot, React Native, JUnit, Hibernate, Flask Technologies: Git, GitHub, AWS(S3, Lambda), Postman, Docker, ¡Query, JWT

Certifications: Oracle Certified Associate Java Programmer, MuleSoft Level-1 Developer

PROFESSIONAL EXPERIENCE

Systems Analyst - Graduate Assistant, Indiana University

May 2022 - present

- Migrating the existing graduate application system to Fireform and Salesforce CRM thereby streamlining the application process for 90,000+ students and employees across two Indiana University campuses.
- Developing REST APIs in Java Spring Boot to handle AJAX calls from Fireform and store/retrieve data from database.
- Automated audit report generation by writing Python script using Pandas to perform data filtering, transformation, and aggregation over datasets containing 200k+ rows resulting in 80% reduction in person-hours.
- Building a dashboard using React. is and Chart. is to visualize the audit reports and facilitate statistical analysis.
- Handled a critical production failure in 4 hours by performing a backup and updating Machforms to support PHP version. 8.0; thus ensuring system availability and serving a vital business KPI.

Associate Instructor, Indiana University

Jan 2022 - May 2022

- Mentored 30+ students to develop a real-world full-stack application following Scrum methodology.
- Conducted sessions on plan-driven and Agile approaches, MVC, microservices, and concurrency in Agile process.

Application Development Associate, Accenture

Jan 2021 - June 2021

- Automated data integration between Newgen and Salesforce system by developing REST APIs using MuleSoft for redirecting trade exceptions to appropriate handlers; reduced person-hours by 72%.
- Developed 8+ System APIs to extract data from databases and SOAP web services; published them as shared modules on Anypoint Exchange to expedite development.
- Improved code quality and stability by writing MUnit tests to ensure 80% code coverage on SonarQube.

ACADEMIC PROJECTS

Glimpse | React Native, Alan Al, JavaScript, NewsCatcher-API

Sept 2022 - Nov 2022

- Developed a voice-assisted news application using React Native to deliver narrated news articles.
- Integrated an Al-powered voice assistant to fetch, read and open articles based on the user's voice command.
- Leveraged Alan AI platform to design the voice dialog by writing custom scripts for speech intent and inference.
- Utilized NewsCatcher-API to retrieve news articles based on filters such as keywords, category, and article source.

Readify | React.js, Material UI, Python, Flask, MySQL, Machine Learning

Jan 2022 - April 2022

- Led a team of 4 to build a platform for users to explore books, create book lists, and get book recommendations.
- Engineered the frontend using React.js, and backend REST APIs using Python's Flask Framework; leveraged Figma for UI prototyping, and Material UI for creating a responsive layout.
- Processed raw book data for 300k+ book records using Pandas to build a content-based book recommendation system using features such as title, genre, author, and rating.
- Assisted team members to optimize recommendation algorithm resulting in 86% reduction in response time.

RentALL | Java, HTML5, CSS3, JavaScript, jQuery, Bootstrap, MySQL, AWS S3

Sept 2021 - Dec 2021

- Spearheaded a team of 3 to engineer a full-stack web application to offer rental and advertisement services.
- Integrated various features such as OAuth, product filtering, voice-activated search, Google Maps API, and chatbot.
- Strategized sprint planning, backlog refinement, user stories management, and team meetings as a Scrum Master.
- Facilitated team members to deploy the web app on Heroku and configured AWS S3 bucket to store product images.
